Good Morning,

I am writing to express my opposition to this new position. I found Dr. Varley's misinformation about the volume and costs of OPRA requests and her attempts to influence the BOE two meetings ago highly inappropriate.

We know that many of the costs associated with the District's current approach to OPRA requests has to do with an overuse of attorneys and unnecessary and potentially illegal redactions. This is not about volume of requests but rather, in my opinion, an attempt to cover the labor and cost associated with improperly responding to OPRA requests.

The volume of OPRA requests can be much higher and still not justify this position. Ms. Kot already has an assistant - at some point we have to start asking questions as to why Ana is able to perform her job so effectively for the town while our District is now seeking yet another position to perform what are the standard duties of a Business Administrator.

Thank You
